

SINGPASS MOBILE

Say goodbye to passwords and tokens!

Log in to check your CPF balance, apply for HDB flats and do more with just one touch!

What is SingPass Mobile?

With the SingPass Mobile app, you can log in easily using your fingerprint, or a 6-digit passcode. No more waiting for an SMS One-Time Password (OTP), or carrying a token around!

Easy authentication

Use your fingerprint or 6-digit passcode.

Secure transactions

Log in securely without tokens or SMS OTPs.

On-the-go access

Transact on your phone, even when you're overseas.

How does it work?

- 1 Scan** the QR code on the login page using your SingPass Mobile app. You won't have to enter your SingPass ID and password!

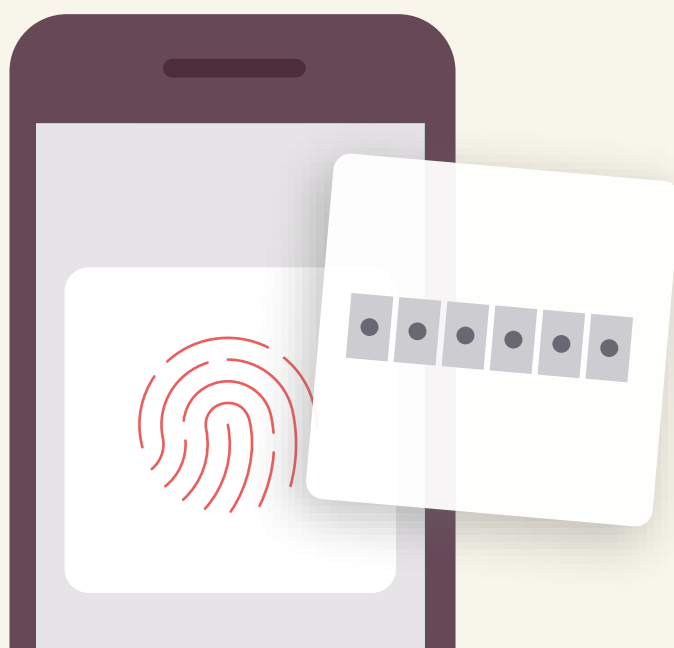

If you're using a mobile device, **tap** the QR code on the login page to launch SingPass Mobile.

- 2 Confirm** the request.

- 3 Verify** your identity using your fingerprint or 6-digit passcode, and you're in!

How to get started?

To set up SingPass Mobile, all you need is a smartphone, an internet connection, and a registered SingPass account.

It's as easy as 1, 2, 3.

STEP 1

Download SingPass Mobile

from the official app stores.

Check that the app developer is Government Technology Agency.

STEP 2

Complete a one-time setup

in less than 3 minutes.

STEP 3

You're all set.

You can now log in to government services using your fingerprint or 6-digit passcode. It's that simple!

Have questions?

Can I still use my SMS 2FA or OneKey token?

SingPass Mobile is your new mode of 2FA, but you can still choose to use your existing SMS 2FA or your OneKey Token. More choices, more ways to authenticate!

Is it safe?

Not to worry! There are several layers of security measures in place to protect your personal data. You need to log in with your fingerprint, or enter a 6-digit passcode, to verify your identity during transactions.

What else can the app do?

We will be adding new features into the app to help you manage your data and transactions better, so keep your app updated!
